# Hats! The Musical makes a Canadian Premiere at Artspring this July 27th

The Academy Presents has been working extra hard this week to get ready for opening night. Actresses Hannah Brown, Amanda Gamley, Lynda Jensen, Rosanne Leonoff, Marit McBride, Barbara Slater and Deb Toole have all graciously donated their time to this project.

Hats! directed by Sue Newman is coming together quite well. This musical is very new and the music varied and contemporary, peppered with songs that employ do-wop back up singing, gospel timing and some truly funny lyrics, that are sure to get stuck in your head! HATS! features 12 new original songs by some of music's best Grammy®, Golden Globe® and Tony® award-winning song writers like Pam Tillis, Kathy Lee Gifford, Melissa Manchester and Henry Krieger.

Luckily this island has the likes of Karen Arney and Shirley Bunyan who at the drop of a hat, stepped up to record some of the songs for rehearsal. The musicians who have been rehearsing these fabulously funny actresses are Eleanor Brouard-John on piano, Sarah Lundy on bass and Caroni Young on keyboards. These young musicians accepted the challenge of learning 12 new songs with alacrity and prove to be superbly versatile and incredibly talented performers! Rebecca Hylands will be joining this amazing band for the production.

This production by the Academy Presents hopes to fill the house at Artspring for the next four Monday nights July 27, August 3, 10, 17 and build a bursary fund for the students at Salt Spring Arts Academy.

• **Bowen Therapy** is a neuromuscular technique that relies on the body's innate ability to heal itself. The treatment involves a series of gentle soft tissue moves that acts as 'reset' buttons for the body. The technique was originally developed for helping sports injuries and back problems but any condition could potentially benefit from a Bowen treatment. It is particularly good for reducing inflammation and pain.

It can help increase blood circulation and boost the immune system, so can be used for relaxation and general maintenance of

a healthy body. Contact Christin Boyd at Bowen Therapy - 537-0747 to find out if your pain or injury may be relieved from this treatment.

• **Georgiana Reehl's Deep Water Exercise Classes** are a fun and refreshing way to participate in a fitness program. Her classes are always upbeat with lively music and excellent instruction. She offers her careful guidance during her full cardio and aerobic workout in the deep end of the pool. With floatation belts provided, you are able to increase your energy and stamina in a safe environment with a fully qualified instructor. Try her class at Rainbow Road Pool - it might be just what you are looking for.

• **Salt Spring Footprints** is a collaboration between Markus and Barbara Poerschke, who together offer a full range of orthotic and orthopedic products and services.

Hailing from a long line of shoemakers and orthotists, Markus carries on the family tradition by combining generational knowledge, his own twenty years of experience, and modern technology. Over the years, he has learned his trade working for hospitals, orthopedic companies and shoe stores in Germany and Canada. Barbara is an orthopedic technician specializing in pediatric shoes and orthotics for children.

• **SynergyFit Personal Training** with Trisha Moroz-Barstead, Certified Personal Trainer BCRPA, ACE. Trisha has been living on Salt Spring for ten years and has been helping clients through exercise for 20+ years.

In this case, "Synergy" is the sum of the body parts working together providing greater strength and better balance. The results are that one can accomplish day-to-day activities with more ease and less injury.

Trisha works with people of any age, her main focus group being the 50+ generation. This age group remains very active,

whether gardening, playing with their grandchildren, or a game of tennis or golf. Increasing and maintaining strength, endurance, and boosting metabolism is achieved through challenging one's body with strength training, core conditioning, stability and cardiovascular exercise.

When she meets a new client, an assessment is performed on strength, endurance and flexibility. Perhaps an injury or recent surgery becomes a focal point for some rehab exercise, or pain in the knees or hips is manifesting from a postural misalignment. Needs and goals are addressed on an individual basis with a customized exercise program.

She currently leads an exercise class Tuesday mornings at 8:30 am at Beaver Point Hall. An evening class will start again in September. Using stability balls, resistance bands, and body weight, exercises are performed using very little equipment.

Great advice to make life a little easier...

### CLEANING TIPS

If you are cleaning framed pictures on the wall, be careful when spraying them with a cleaner. Too much spray may trickle down between the glass and the frame and could be absorbed into the matting. You might end up re-framing them. Your alternative is to spray your cloth or paper towel first and then wipe your pictures. That way you are safe.

When you are vacuuming and you have pets, you may smell a damp odour that's nauseating. .... Well! You should change the vacuum bag, and when you do - why not try adding a sheet of fabric softener or even a few drops of softener into the hole of the bag - which will absorb in seconds - you will get a lovely smell permeating your house instead of that yucky wet doggy smell. Pew!

Please be very careful not to mix your cleaning chemicals at random. You could get into trouble. For instance 'Lime-A-Way' mixed with bleach or other chemicals can cause your fixtures to corrode and rust and can also asphyxiate you. But! - I'll be damned if it's not a good bathroom cleaner on the glass doors if applied correctly.

### INTERESTING FOOD FACTS

The small baby carrots you find in the grocery store are sometimes not what they seem. Often they are larger carrots that are gnarled or misshapen and then they are machined down into the baby carrot size. They are often also soaked with chlorine to preserve the color and make them last. If you keep them for a while in the fridge, you will notice a white film on them. That's the chlorine. Gross!!

### GARDEN TIPS

Tomato plants are more prolific with larger and better quality fruit and definitely the taste - here's how to make this happen? Well! If and when you re-pot you're tomato plant, pinch the two smaller leaves that are nearest to the root, plonk them gently into the ground deep enough to cover the pinched area and mound a little soil around them. Later when their beginning to bush out - pinch or cut off the lateral branches from the main stalk, this procedure adds more flavour to the tomato and also strengthens your plant. Le'Yum!

### JOKE OF THE DAY

Two chaps went hunting, one asked the other! "Hey Harry!" Does a deer have any dough? "Yeah!" says Willie... "Two bucks"

# On Tour This Summer!! The little off Broadway hit with a big heart comes to the West Coast... PIAF: Love Conquers All!

*A* passionate one woman musical drama by Roger Peace with 13 French songs originally performed by Edith Piaf and presented by Tone Poet Productions.

A story of courage and love, Edith Piaf lived to sing. Her life and songs are interchangeable. Her place in history irreplaceable.

With cast Naomi Emmerson as Edith Piaf, pianist, Yan Li; and Associate Director Adam Blanshay, this intimate Off- Broadway hit has travelled from Montreal to Manila, presenting the life and loves of the legendary French singer. She stood only 4'10" and her voice shattered the world with a passion that cried from the heart. Come share a cocktail with an icon, as she shares anecdotes of her passion for men, music and morphine. "The multi-talented Emmerson acts Piaf's dizzy highs and devastating lows with all the passion necessary... gorgeous singing...makes the songs fresh and powerful."

Songs such as "La Vie En Rose", "Milord" and "Non, Je ne Regrette Rien" are presented in French (text in English) and are beautifully supported by live acoustic piano. Runs approximately 105 minutes plus a 15 minute intermission.

[www.lvrproductions.com](http://www.lvrproductions.com)

Tone Poet Productions (formerly LVR Productions) with Naomi Emmerson as the Artistic Producer and Jake Langley as President, was created in Toronto, Canada in 2005 to present the production Piaf: Love Conquers All at The Toronto Fringe Festival. It was picked as "Top Ten of The Fringe" and tickets sold out! The production then toured Ontario and Quebec, Canada in the summer of 2006 to great success. The Company is now based in Brooklyn and was honored to present the USA Premiere of this bilingual drama as part of the 2007 FringeNYC. The production was awarded "Outstanding Musical" and was chosen to participate in The Fringe Encore Series. It had its official Off-Broadway run at the SoHo Playhouse and ran for 10 weeks in 2007-2008. It played at the Piccolo Spoleto Festival in South Carolina and then in the Philippines and in Montreal at Centaur Theatre. Piaf: Love Conquers All was written in 1992 and was first performed by Patsy Gallant in Montreal at the Diligence Dinner Theatre then at The Place Des Arts. Ms. Emmerson first performed it in Toronto in 1993 at the Limelight Supper Club.

## The Primal Perspective

By Jim Anderson

All my life I have been on the trail of a mystery. And it turns out that the mystery I have been tracking is really a coming metamorphosis of the human mind. Forty-five years ago in the world of my youth the cavernous cracks and desperate problems we now know in stark relief today were beginning even then to show beneath an oblivious and complacent order. My studies in every direction in science, philosophy, theology, sociology and simple everyday life brought me to the conclusion that there must be something wrong at the fundamental center. There had to be a priceless and vital missing piece of the puzzle not yet discovered that was causing the insolubility, chaos, inhumanity, brutality, spiritual desolation and agony everywhere manifested in our world. And, somehow I came to believe that if that missing piece could be found that our world would begin to heal, and begin to finally evolve into magnificence. It was simply an instinct. In my youth, I believed that it had to be there. All I had to do was find it. And that is how it all began.

What I have found is that there is a desperate problem and fatal flaw hidden in the way our logical minds function, and the way we think. When we are establishing truth, meaning and order

in universe we believe it is in accordance with the design and destiny of universe, but we are wrong. Universe means something else entirely. All of our rational and logical thought is secretly built upon a Primal Perspective that was born ages ago in ancient and prehistoric darkness. It is this Primal Perspective that is fatally flawed. And that fatal law has been hidden deep from us for perhaps over 50,000 years.

It is possible that it would have remained hidden still, except that our world is now falling apart all around us and monstrous and catastrophic problems rage everywhere. Humankind has reached a crucial climax phase. The time has come for our life force to finally see this unknown and mysterious fatal flaw that now threatens to destroy our civilization.

Long ago in the darkness beyond the trace of any evidence of artifacts, skulls, bones, chromosomes or proteins it crystallized in primitive human minds. It was born before tools, before language, before words...before ideas. Ages before the first stone tools and pottery shards; before specific anatomical, physiological and morphological change something profound and immense happened in those early Human minds. No evidence of that secret and incredible genesis now remains.

We know that in the grand and galactic scale of the evolution of life on Earth that dramatic and explosive change to human life followed that secret genesis. In comparatively rapid succession, conceptual and abstract thought, foresight, toolmaking, symbolic communication, language, culture and art blossomed on Earth after eons of uneventful and unremarkable existence. Human beings found a way to "animate" universe and acquire mastery and control of a savage world. That secret foundation was the Primal Perspective.

Since that prehistoric birth that secret has been at the center beneath and below all of our rational and logical thought. We have not been able to truly see it, and "think" of it because it forms the matrix of how we think and establish meaning itself. The fatal flaw therefore contaminates every thought we can now conceive. In our modern world, the Primal Perspective and our logical and rational order have allowed us to successfully predict universe, even though we do not truly understand it. It has lifted us into the open door of outer space. But it has also brought us today to the brink of self-destructive annihilation and oblivion. It is time we now bring this secret mystery into the light of day.

We all recognize the savage beast slumbering in us all, beneath the surface in our world. That jungle world of selfish emotion, rage and fear has the

potential always to destroy all the order, humanity and society we have built through the ages. We have carefully constructed a world of law, etiquette, and punishment to contain that beast and keep it at bay. Now we must recognize that even beneath all of our vaunted objectivity, rational law and logical order there is also slumbering a malevolent, dark secret that must be brought into the sunlight and tamed. To survive we have to change the way we think. Such a mammoth change can only come about with metamorphosis. A metamorphosis that by definition is almost beyond imagination.

I know these are almost indigestible ideas, and that they cannot be properly expressed in these few brief words. But there is something here that is simple and can be clearly understood.

• Listen:

"ALL" of us have got it wrong. All of us have unwittingly built our awareness, our dreams, our lives and our world around a fatal, prehistoric error that we have not yet recognized. It is a human problem and it is nobody's fault. We are not so smart. We are still primitive, and the problem is simply ignorance. Colossal ignorance. And the only solution is finding a way to light that primal darkness together. The only solution is a metamorphosis of the human mind.

Time to join hands and create a new world. You and I can do this impossible thing.

We can do it, If we try... together.

Bi-weekly horoscope contributed by Patrick Arundell. Visit his website at [www.patrickarundell.com](http://www.patrickarundell.com) for more great features... see below.

### ARIES Mar 21st - Apr 20th

A big change of emphasis sees a far more social backdrop and you can find yourself in the middle of things. The Sun chases a great angle to Mars and by the week's end there can be a convergence, which can see you super powered with energy and enthusiasm. Friends can be a particular part of this week's success. A case of the more the merrier!

### TAURUS Apr 21st - May 21st

Think of building things. It doesn't matter whether this involves actual construction or something which you need to build up in your attitude. Look to put solid foundations in place. The sturdier these are, the more the structure will endure. And Venus's superb link to Jupiter suggests that a big breakthrough is possible in a professional situation.

### GEMINI May 22nd - Jun 21st

Your ideas can really wow people. And this is a time when you can feel more confident about being your usual bubbly self, so it would be of no surprise if you had many different things going on at the same time. The trick will be to pace yourself. You like stimulation but you're not a machine that can always run at full pelt. Pick and choose.

### CANCER Jun 22nd - Jul 23rd

I can't promise that you'll win the lottery, but what we both know is that if you don't buy the ticket you certainly won't hit the jackpot. And life is a bit like that this week for you, when there are fantastic opportunities for you to pursue but you need to make the effort. Surprise news can also be received from someone particularly thoughtful or generous.

### LEO Jul 24th - Aug 23rd

You're likely to feel on much better form this week. A new best friend can be found or you can feel very upbeat about the associations you already have. Yet with such a lot of vibrant chart activity, be aware that the Quarter Moon could find someone close to you down in the dumps and needing of your attention, yet they may not tell you this outright.

### VIRGO Aug 24th - Sep 23rd

An interview can go very well and you make a superb impression. You can also take someone under your wing, and give them practical guidance. You seem to be in demand too Virgo and yet there may be moments when you want to go off on your own, and just enjoy some downtime. Someone from your past can also surface in your thoughts.

### LIBRA Sep 24th - Oct 23rd

Someone glamorous emerges. This person may be rather well off or have excellent social connections. If you're scratching your head to think who this might be, it's because an introduction may be yet to take place. With the party season in full swing, an invite can soon head your way. You may also find yourself dreaming up an exotic story line.

### SCORPIO Oct 24th - Nov 22nd

The property sector has been depressed, but there are bargains to be had and even if paying for your existing home has proved a tough foe, better conditions emerge now which can see you rearrange your finances. With the Sun and Mercury high in your horoscope, don't be fearful of chasing your ambitions. Your shrewdness can lead to a breakthrough.

### SAGITTARIUS Nov 23rd - Dec 21st

You can feel much more optimistic about the merits of joining with someone. In business, a deal can get the green light and be formally signed off. Romance is also under very favourable stars Sagittarius. If there is someone you like, your winning manner can make an excellent impression. But all sorts of relationships can flourish now, new or old.

### CAPRICORN Dec 22nd - Jan 20th

Sometimes we need to give out to get back and if you can give of your energy and time to people, consider it, because it can create an enormous amount of goodwill - which can prove invaluable. For example, a boss may ask you to cover for a colleague's illness. If you agree, they're likely to appreciate it. Being a good citizen will create good karma.

### AQUARIUS Jan 21st - Feb 19th

Rarely has your Solar Horoscope been so jam packed with astral goodies, as it is now. All sorts of frustrations can start to fade away, and most importantly, dialogue can improve between you and someone you've been estranged from. It may be time to forgive and forget. Going over the same ground probably won't change why issues crept in first time round.

### PISCES Feb 20th - Mar 20th

Someone can be so amazingly kindly this week, and this could be you. Few zodiac signs will bend over backwards for others like you do, simply because it feels right. However, nobody likes to be used, so even if you do help someone, it's important that this is sensible. If not, you'll soon be taking in all sorts of waifs and strays, noble, but impractical!
